

BETTER BY DESIGN

**EASYSOVE**<sup>®</sup>

NOW PATENTED

FLOOR TO WALL COVE SYSTEM

**Easycover<sup>®</sup> cove base moldings are pre-formed with a patented watertight design, specifically geared for the floor and wall coatings industry.**

A uniquely engineered cove base, the cove is easily coated and provides numerous benefits over traditional hand troweled and existing cove moldings currently available.

### Easycover<sup>®</sup> Coving Advantages

A patented design with interlocking technology, protects against moisture intrusion to dry wall, CMU, and other porous surfaces where associated hazards such as mold and mildew can occur.

Easycover<sup>®</sup> coving is manufactured to have an expansion coefficient, similar to epoxy. This feature helps to eliminate cracking and separation between dissimilar materials under thermal cycling conditions.

Easycover<sup>®</sup> coving allows for greater installation convenience, as it can be mitered to accommodate inside or outside angles without the need for expensive pre-formed corners.

### Easycover<sup>®</sup> Coving Benefits

#### **BOND STRENGTH**

Superior bond to substrate when using our adhesive.

#### **COVE ANCHOR**

Can be used in wet environments due to patented design.

#### **FIRE RESISTANT**

Will not support combustion.

#### **CUSTOMIZABLE**

Can be custom made to any length, color and/or pre-coated.

### Product Options:

- 4" and 6" tall Radius Cove Base
- Actual height: 4", 6"
- Cove radius: 1"+
- Cove Base wall thickness: nominal 1/4"
- Length: 48"
- Total distance out from wall: 1 1/4"
- Weight: approx. 0.70 lbs/ft and 0.95 lbs/ft
- Cove base: fifteen 4' pieces/box, totaling 60'/box; one 4" box = 34 lbs and one 6" box = 49lbs
